

SUSTAINABILITY

AT THE XO RESIDENCES PALMA

"AT XOJAY WE BELIEVE THAT TRUE QUALITY EQUALS SUSTAINABILITY"

ENERGY PERFORMANCE CERTIFICATE

Energy Performance Certificates were introduced in Spain in 2013 and are a legal requirement for a building to be constructed. Once obtained, an EPC is valid for 10 years. The certificate tells on a scale of A-G, about the impact the home has on the environment. Better-rated homes should have less impact through Carbon Dioxide (CO₂) emissions. The rating will also take into account the level of consumption of electricity, water and gas.

1ST A CERTIFIED BUILDING IN MALLORCA

The XO Residences Palma will be the First A certified building in Mallorca. This position us as one of the most energy-efficient residentials, comprised with the most innovative commitments to green building practices. With cutting-edge energy saving technologies and outstanding building qualities that save you money and help the environment.
