

SUSTAINABILITY

AT XOPARQ

XOJAY

At XOJAY we believe that true
quality equals ***sustainability***.

Energy Performance Certificate

Energy Performance Certificates were introduced in Spain in 2013 and are a legal requirement for a building to be constructed. Once obtained, an EPC is valid for 10 years. The certificate tells on a scale of A-G, about the impact the home has on the environment. Better-rated homes should have less impact through Carbon Dioxide (CO₂) emissions. The rating will also take into account the level of consumption of electricity, water and gas.

A+ Certified Building in Mallorca

XO PARQ is one of the first few A+ certified buildings in Mallorca. This position us as one of the most energy-efficient residentials, comprised with the most innovative commitments to green building practices. With cutting-edge energy saving technologies and outstanding building qualities that save you money and help the environment.

Sustainable & Innovative Building Process

A pair of hands is shown from the wrist up, palms facing each other, holding a string of warm white LED lights. The lights are strung in a loose, circular pattern, creating a soft, glowing effect. The background is a plain, light-colored wall. The overall mood is warm and caring.

At XOJAY we believe that we have ***responsibility*** not just towards our clients and partners but also to the wider community and future generations.

X O J A Y

HOME IS THE NICEST THING THERE IS.

XO PARQ, C/Barranquilla, 07007, Palma
